3. For Possible Action: Approval of TFAD's November 7, 2023, Meeting Minutes:

- Grammatical errors were noted for correction.
- Dr. Peter Reed motioned to approve the minutes with corrections:
- Tina Dortch Second the motion:
- All approved

4. Presentation and Discussion: Advance Care Planning, Subjects may cover:

- Nevada laws/regulations regarding advance care planning
 - All 50 states subscribe to the uniform Power of Attorney (POA) law which may look different in each state.

- Nevada's POA laws have been amended many times over the years.
- Recommendation to have a Physician Orders for Life Sustaining Treatment (POLST) in place.
- The supported decision-making agreement is a tool for older adults that may be diagnosed with dementia. It is a standalone advanced planning document that has legal requirements to complete one.
- You can use a POA as a backup to the supported decision-making agreement.
- The Advanced Psychiatric care directive is overlooked and underused by those who may have a Co-occurring Psychosocial diagnosis.
- Advance Psychiatric care directive does need to be kept updated.
- POA is a power over another individual, supported decision making is the person is still making the decision with support.
- Legal strategies to minimize the need for guardianship.
 - Before guardianship is put in place the individual must demonstrate that it is necessary, and they cannot complete basic needs without assistance being in place.
 - Assembly Bill (AB) 414 changes the language to be user friendly. It expands on priorities like what is very important, somewhat important, and not important at all.
 - Placement clarity is lacking with the special options powers check box section.
 - The new law removed the need for a certificate of capacity which could lead to abuse and exploitation for older adults.
- Efforts by Legal Aid (as an OAA grant recipient) to offer advance care planning resources (service/education) including the Legal Aid kiosk project.
- Assessment of unmet needs related to advance care planning (services/education)
- Potential new/revised legislation for the 2025 legislative session.
 - Presentation is available with the [meeting materials](#).

5. **Presentation and Discussion:** Nevada Lock Boxes Who/How to use.

- Nevada Lockbox is a no-cost safe electronic repository to store advance directives and guardianship nominations accessible only by you, your designees, and authorized entities online 24/7
- The Office of the Secretary of State cannot help with creating documents or provide legal advice.
- To schedule a presentation contact Maggie Salas Crespo msalascrespo@sos.nv.gov
- For Lockbox information go to: website www.Nevadalockbox.nv.gov, e-mail Lockbox@sos.nv.gov, Call (702) 486-2887.
- Nevada Lockbox presentation is available with the meeting materials.

6. **For Possible Action:** Review and Approval of TFADs 2023 Annual Report:

- Update the caregiver's facts and figures information on page 3,
- Revise sections regarding separating Bills that TFAD were interested in, bills that TFAD has concerns about, and Bills that did not pass.
- Remove the PWD acronym's and use people living with dementia.
- Add comment that more Legislative support is needed going forward.
- Dr. Reed motioned to approve the TFAD 2023 Annual report with all the revisions detailed by the chair.

- LeeAnn Mandarino second the motion
- All approved

7. **For Possible Action:** Final Review and Approval of TFAD’s 2023 Recommendations in the State Plan to Address Alzheimer’s for potential presentation grouping, subcommittees, and combined efforts.

- LeeAnn Mandarino motioned to move this agenda item to the March meeting:
- Cheyenne Pasquale second the motion:
- All approved
