

Attachment A, Nevada Medicaid Update: Presented by Lori Follett

- DHCFP went to public hearing on MSM 2800 School Health Services policy, revisions made to the entire chapter to include the expanded services. Public Hearing approved May 1, 2020.
- PT 60 School Health Services Billing Guide can be found at <https://www.medicaid.nv.gov/providers/BillingInfo.aspx>
- DHCFP currently has contracts with seven school districts, five of those schools have amended their contract to include expanded services.
- Most school districts have decided to bill for expanded services at the beginning of the new school year, therefore, DHCFP does not have data for ABA services provided in the schools at the moment.
- The following are ABA covered services provided in a school setting:

These can be found in MSM 2803.12A COVERED SERVICES

Covered services include the following when delivered as detailed in MSM Chapter 3700:

1. Behavioral Screening;
2. Comprehensive Diagnostic Evaluation;
3. Behavioral Assessment;
4. Adaptive Behavioral Treatment Intervention; and
5. Adaptive Behavioral Family Treatment.

There are limitations as noted in 2803.12B. All limitations listed in MSM Chapter 3700 – Applied Behavior Analysis.

- Its important for the ABA Board to know that although Medicaid has expanded the services to be provided in the school setting, it's up to the school districts to contact with the qualified providers to render the ABA services in the schools.
- If you have additional questions please email schoolhealthservices@dchfp.nv.gov
