

January 26, 2017

Dear Commission Members,

One of the goals in the Autism Commission Five Year Strategic Plan is to create a statewide website. The Community Education Subcommittee would like to propose the following recommendations for the Commission to consider:

- What is Autism?
- Resource list for North, South and Rural areas.
- Resources broken up by age (0-6) Young child, (7-12) School age, (13-18) Transition age and (19+) Adult
- Community Safety resources (First Responder Training, Sticker program and Disability registry form)
- Online resources offering tool kits (brief descriptions on various subjects)
- Statewide conferences
- Lists of providers, including but not limited to, ABA therapy, OT, PT, DAN doctors, non-profit organizations, state agencies, Medicaid, social security, ATAP, etc.

The Community Education Subcommittee recommends to the Autism Commission that the Commission approve and support these recommendations.

Sincerely,

Denise Robinson  
CES, Chair
