

**NCASD- Community Education
Subcommittee Objectives**

Goal 4: Promote a well-informed, empowered and supportive Nevada population around the issue of ASD.

Objectives	Strategies	Timeline	Partners In Action	Benchmarks	Progress
4.1 Establish a statewide education and outreach campaign regarding ASD.	4.1.1 Coordinate with the Division of Public and Behavioral Health to establish and implement a statewide community education campaign. Develop outreach materials for billboards, posters and flyers specifically for rural Nevada.	2015	DPBH, ADSD, collaboration with nonprofits and parents	Launch of outreach campaign	Made contact with Gene Sugano at channel 8. He is ready and willing to work with us on the PSAs. We agreed we needed to have our website up and running before we continued so we have a site to send families to for information.
	4.1.2 Redevelop the 100-Day Toolkit to incorporate a 365-day timeframe, to support parents and individuals in Nevada who have been diagnosed with ASD.	2016		Completion of 365-Day Toolkit, ready for distribution	Gathering information
4.2 Develop a navigational network to support families in accessing information, services, and a peer network for support.	4.2.1 Development of a parent-driven peer support network statewide that provides information, education, support and advocacy.	2018	DPBH, ADSD, collaboration with nonprofits and parents	Peer support network launched	Gathering information.
	4.2.2 Development of a website that supports access to information, resources and connection to peer support network.	2018		Navigational network website launched	We have made contact with the Debra Vigil and will be working with her to help get a statewide website. Currently there are no funds for CES to work with Brook Adie on a new website.

<p>2.5 Expand and integrate data systems among all State departments and stakeholders to track diagnosis, treatment, services, and outcomes for individuals living with ASD to improve coordination of care, and to disseminate information.</p>	<p>2.5.1 Identify data elements within each ASD service system that best measure issues such as: Number of individuals screened and diagnosed; time between failed screen and access to service</p>	<p>2018</p>	<p>ADSD, NDE, DETR</p>	<p>Expanded data collection protocol for ASD services</p>
