Dear Director Willden,

On behalf of the Nevada Commission on Services for Persons with Disabilities (CSPD) attached is the Report related to the use of Master Tobacco Settlement Funds (MTSF). It is the recommendation of CSPD to allocate funding equally between Lifespan Respite programs, Positive Behavior Support training and Independent Living dollars. This recommendation comes from a subcommittee of CSPD, which focused on how to maximize funding between these three essential services. As all services are important for persons with disabilities and their families, equal distribution of funding should be the priority.

Thank you for your consideration

Brian Patchett, Chair

Mary Bryant, Vice-Chair

Nevada Commission on Services for Persons with Disabilities
(CSPD)
