AUTISM TREATMENT
ASSISTANCE PROGRAM

ATAP

Autism Treatment Assistance Program

*Decreasing/eliminating the need for
lifelong supports for children on the
autism spectrum*

WHAT IS ATAP?

The Autism Treatment Assistance Program (ATAP) is a statewide program that provides temporary support and funding to pay for evidence-based treatment and therapy for children with an Autism Spectrum Disorder (ASD).

ATAP offers a variety of plans to enable choice while supporting evidence-based treatments. ATAP can also assist with co-pays and deductibles for therapy when the family cannot access their insurance due to excessive cost.

WHO IS ELIGIBLE FOR ATAP?

Children who reside in Nevada and are between the ages of 18 months through 19 years old, who have an ASD diagnosis.

Interested parties may call 702-668-3271 to start the ATAP application. A portion of the application will be completed over the phone and the other portion will be mailed to the potential client. The application and all documents must be submitted within 30 days.

WAITLIST, PROVIDERS, AND MORE!

Waitlist

ATAP currently has a waitlist. Families may be placed on the waitlist once an application and all supporting documentation have been completed and submitted to the Intake Coordinator.

Providers

ATAP has agreements with numerous providers statewide. When a family has been chosen to receive funding, they may choose from our provider list.

Not Covered by ATAP

Respite, medicines, supplements, private school placements, classroom paraprofessionals, and treatments which are not evidence-based are not covered by ATAP.
