\*\* Benchmark plans for LIS

\* SRX does not pay any portion of premium

Things to think about if you look for a new Part D plan for 2017

- Does the new plan cover most or all of your prescription medications at the lowest possible cost? Is your pharmacy in the new plan's network?
- Do you want Senior/Disability Rx to pay the full premium? If so, there is **one** plan with a premium less than \$20.56. Remember to tell your new Plan that you are a member of the Nevada State Pharmaceutical Assistance Program (SPAP) and you **do not** want your premium deducted from your Social Security check. We cannot reimburse you for this expense.
- If you are considering an enhanced Part D plan with a higher premium because it provides some coverage during the Coverage Gap, you may want to reconsider. Nevada Senior/Disability Rx will pay 100% of the cost of your covered medications **during the Gap**. **YOUR SHIP COUNSELOR WILL HELP YOU COMPARE PLANS.**
- You may wish to consider a Part D plan with a higher premium if it offers a reduction in the Annual Deductible and lower drug co-payments during the Initial Coverage period because these are expenses that Nevada Senior/Disability RX cannot cover. However, make sure the savings make up for any increased premium costs to you.
- AETNA has not entered into contracts with the State of Nevada in order for Senior RX to be able to pay your premium. \*  
If you choose this plan, we will be unable to subsidize your premium in 2017.
