Provider agrees to provide ongoing, authorized services to a Participant until the termination date of the contract.
- b. Division Termination for Nonappropriation. The continuation of this provider agreement beyond the current biennium is subject to and contingent upon sufficient funds being appropriated, budgeted, and otherwise made available by the State Legislature and/or federal sources. The Division may terminate this agreement, and the Provider waives any and all claim(s) for damages, effective immediately upon receipt of written notice (or any date specified therein) if for any reason the Provider's funding from Division and/or federal sources is not appropriated or is withdrawn, limited, or impaired.

- d. Division Termination For Default. The Division may terminate this agreement immediately when the Division receives notification or determines that the Provider no longer meets the professional credential and/or licensing and/or certification and/or insurance requirements.
- e. Winding up Affairs upon Termination. In the event of termination of this Agreement for any reason, the parties agree that the provisions of this paragraph survive termination:
 - The parties shall account for and properly present to each other all claims for fees and expenses and pay those, which are undisputed and otherwise not subject to set-off under this Agreement or the Program;

- Provider shall preserve, protect and promptly deliver into State possession all proprietary information owned by the State, if any.
 - Provider shall protect the confidentiality of all Participant records.

Damages for any State breach shall never exceed the amount of outstanding unreimbursed claims submitted pursuant to the Program.
 3. Neither party shall be deemed to be in violation of this Agreement if it is prevented from performing any of its obligations hereunder due to strikes, failure of public transportation, civil or military authority, act of public enemy, accidents, fires, explosions, or acts of God, including, without limitation, earthquakes, floods, winds, or storms. In such an event the intervening cause must not be through the fault of the party asserting such an excuse, and the excused party is obligated to promptly perform in accordance with the terms of the Agreement after the intervening cause ceases.
 4. This Agreement and the rights and obligations of the parties hereto shall be governed by, and construed according to, the laws of the State of Nevada, without giving effect to any principle of conflict-of-interest that would require the application of the law of any other jurisdiction. Provider consents to the jurisdiction of the Nevada district courts for enforcement of this Agreement.
 5. This Agreement and its integrated attachment(s) constitute the entire agreement of the parties and such are intended as a complete and exclusive statement of the promises, representations, negotiations, discussions, and other agreements that may have been made in connection with the subject matter hereof. Unless an integrated attachment to this Agreement specifically displays a mutual intent to amend a particular part of this Agreement, general conflicts in language between any such attachment and this Agreement shall be construed as consistent with the terms of this Agreement. Unless otherwise expressly authorized by the terms of this Agreement, no modification or amendment to this Agreement shall be binding upon the parties unless the same is in writing and signed by the respective parties hereto and approved by the Office of the Attorney General and the State Board of Examiners.

24. Reimbursement:

1. The Division will provide reimbursement payment for authorized and timely claimed services provided to qualified Recipients by the enrolled Provider, for any such services actually and properly rendered by the Provider in accordance with Division statutes, regulations, administrative policies and procedures, individual service plans and service authorizations unless direct billing to Medicaid has been established for certain

Participants. The Division's reimbursement rates may vary over the term of this Agreement and must conform to the established reimbursement rates in force at the time the service was provided with respect to the Division's receipt of each Provider claim.

2. The Provider is responsible for the validity and accuracy of claims whether submitted on paper, electronically or through a billing service. The Provider agrees to reimburse the Division for payments that are not verified by Provider documentation.
3. Timeliness of billing is of the essence to the Agreement and recognition that the Division is on a fiscal year. All billings must be submitted within 30 days of the provision of services. Billings for services provided between June 1st and the 30th must be submitted to the Division no later than the first Friday in August of the same calendar year. All billing submitted late, which forces the Division to process the billing as a stale claim pursuant to NRS 353.097, will subject the Provider to an administrative fee not to exceed one hundred dollars (\$100.00). The parties hereby agree this is a reasonable estimate of the additional costs to the Division of processing the billing as a stale claim and that this amount will be deducted from the stale claim payment due to the Provider.
4. The Provider, whether direct billing to Medicaid or the Division, agrees to pursue the Participant's other medical insurance and resources and take all steps necessary to maintain eligibility for third party benefits prior to submitting a claim for service to the Fiscal Agent. This includes but is not limited to Medicare, Medicaid, private insurance, Recipient co-payments, medical benefits provided by employers and unions, worker compensation and any other third party insurance. Failure to do so will result in reimbursement deductions equal to the amount of loss of the participant's applicable benefits.
5. The Provider shall accept payment from the Division as payment in full on behalf of the Recipient, and agrees not to bill, retain or accept payments for any additional amounts except as provided for in the service authorization, as delineated in the ISP. The Provider shall immediately repay the Division in full for any claims where the Provider received payment from another party after being paid by the Division.
6. Provider agrees excess payments beyond authorized reimbursement to a Provider may be deducted from future payments.
7. Provider agrees to be responsible for federal or state sanctions or remedies including but not limited to reimbursement, withholding, recovery, suspension, termination or exclusion on any claims submitted or payments received. Any false claims, statements or documents concealment or omission of any material facts may be prosecuted under applicable federal or state laws.

25. Notices:

1. All notices must be in writing and shall be deemed received when delivered in person; by email; or, if sent to address on file by first-class United States mail, proper postage prepaid. Provider shall notify the Division and/or Fiscal Agent within five (5) business days of any of the following:
 - a. Any action which may result in the suspension, revocation, condition, limitation, qualification or other material restriction on a Provider's licenses, certifications, permits or staff privileges by any entity under which a Provider is authorized to provide Services including indictment, arrest or felony conviction or any criminal charge.
 - b. Change in corporate entity, servicing locations, mailing address or changes to key personnel or any other information pertinent to the operations and / or provision of services.
 - c. When there is a change in Provider business ownership, the new Provider must meet requirements for, at a minimum, provisional certification and adhere to Provider Standards. Existing Participant records must be kept confidential, and cannot be given to the new Provider until a new agreement with the Division has been fully executed. Existing service authorizations become void upon ownership change and must be renegotiated with the Division. In order to do so, the Division must be apprised of the change in ownership at least ninety (90) days in advance in order to assess certification status, agreement requirements and capability of the new owner to meet Participant service needs. XI. PROFESSIONAL SERVICE AGREEMENTS

Professional Contracts – Working with Children/Elderly or Disabled Persons

Many professional services involve working with or caring for children, the elderly, physically or developmentally disabled people. When these clients are in the care, custody or control of the contractor it creates an additional risk of liability for the State because of the severe and sensitive nature of the possible allegations of wrong-doing.

When services involve working with these groups of individuals, the insurance requirements in the contract must be revised to include coverage for **"sexual molestation and physical abuse"**.

Coverage for this type of claim, or allegation, is excluded from standard general liability policies. Therefore, contractors whose services include working with and/or caring for children and disabled persons should have their policies specifically endorsed to include this coverage.

In addition to the standard requirements of general liability, automobile liability, professional liability and workers' compensation insurance, the specifications included in this section also require coverage for sexual molestation and physical abuse.

For those contracts where Providers are involved in providing extensive in-home services, we have also included additional specifications for crime coverage. This coverage would be necessary to protect the client's loss of values or property. Crime policies should be endorsed to **include third party fidelity coverage** and list State of Nevada and the state clients' as **Loss Payee**.
