

2019 Nevada Tribal Summit on Brain Health and Dementia

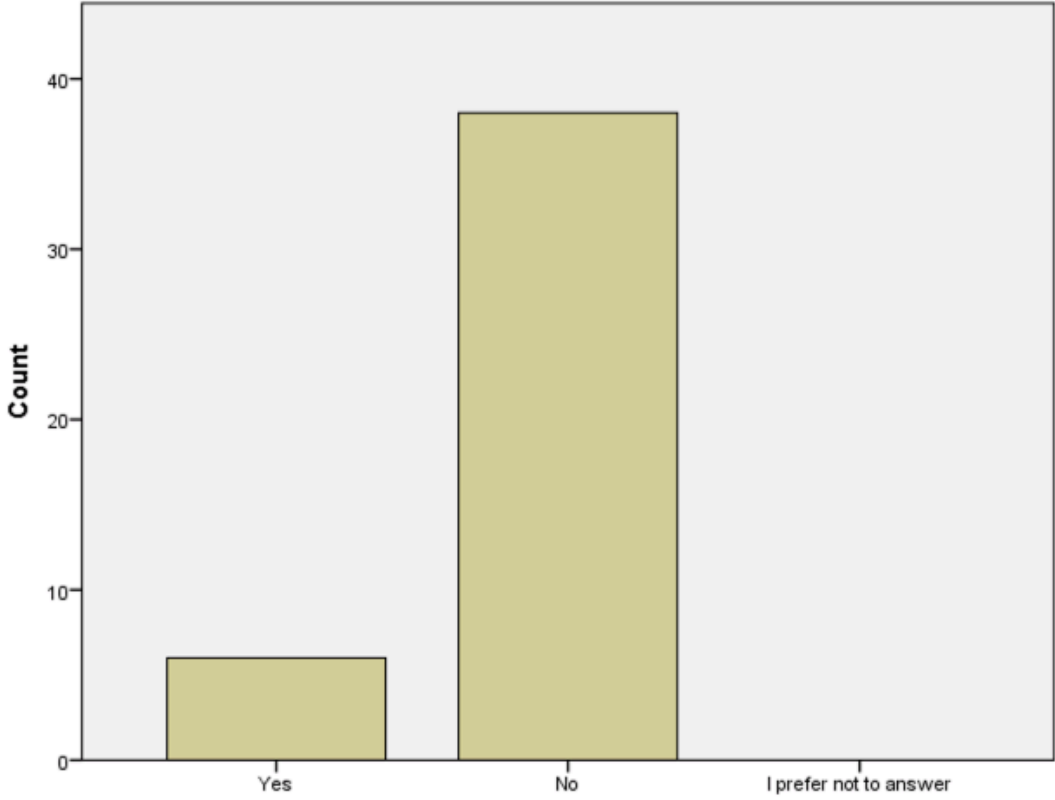

Post-Conference Evaluation Report

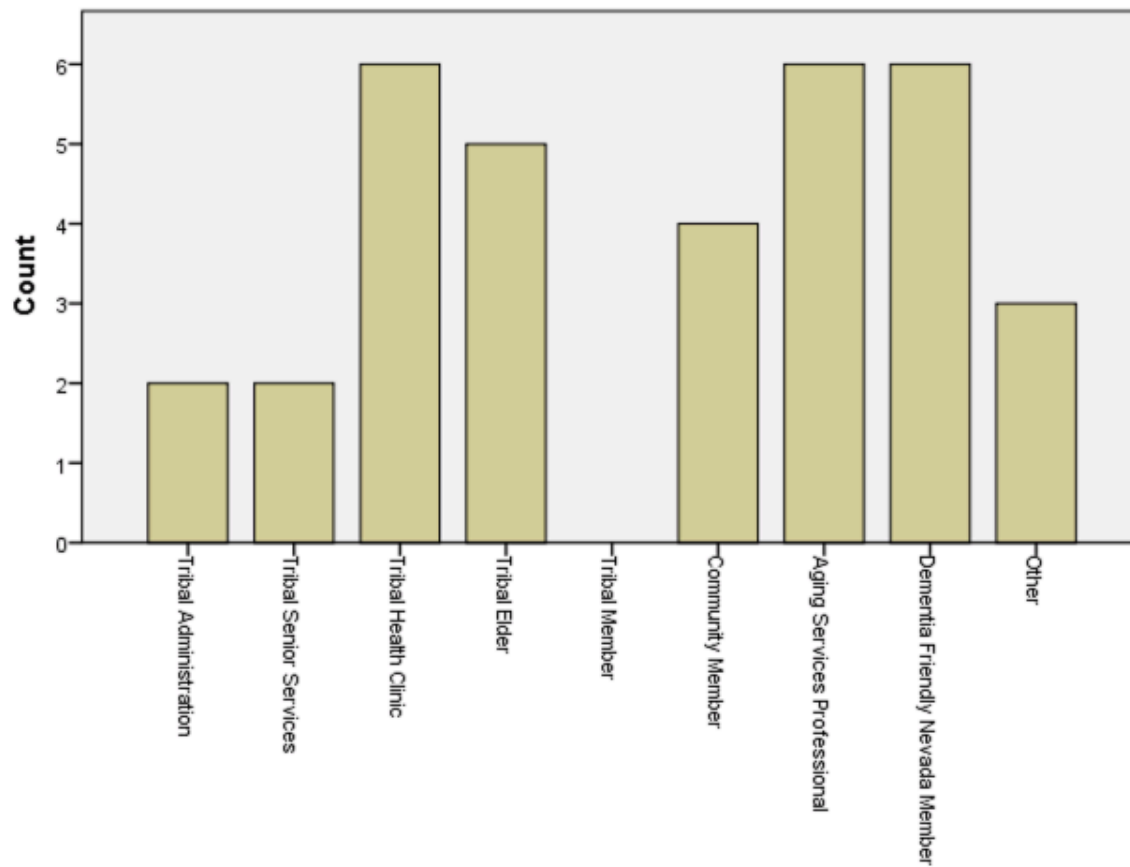

I am currently living with dementia.

I am, a care partner for someone living with dementia

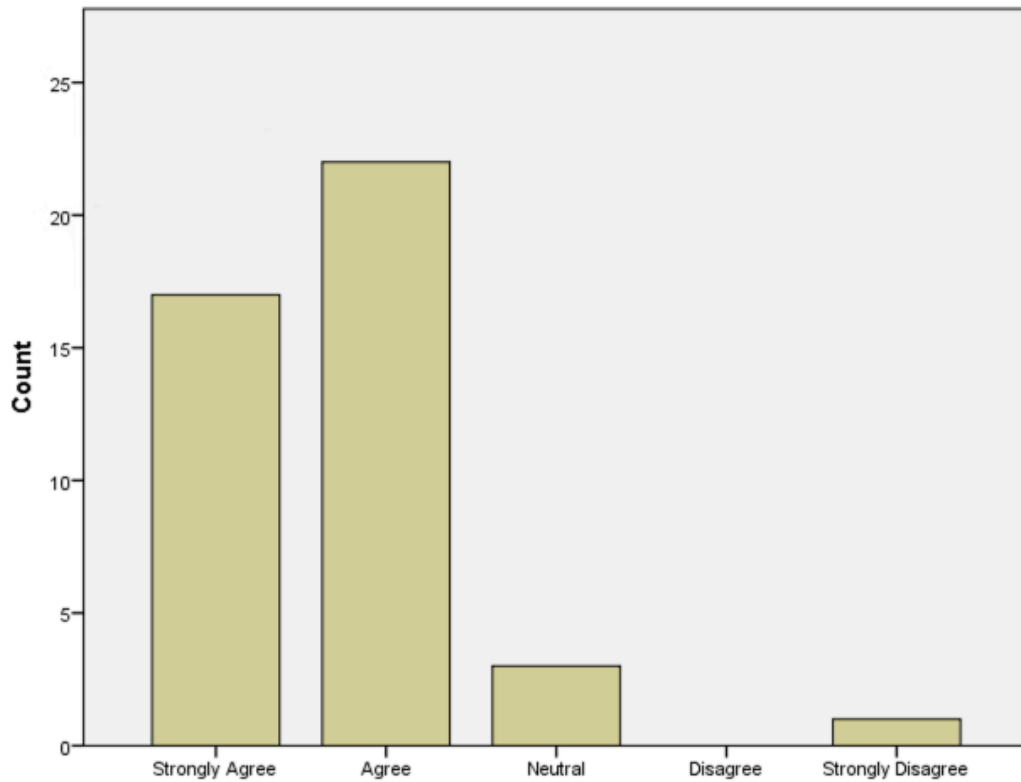

Please circle your primary affiliation.

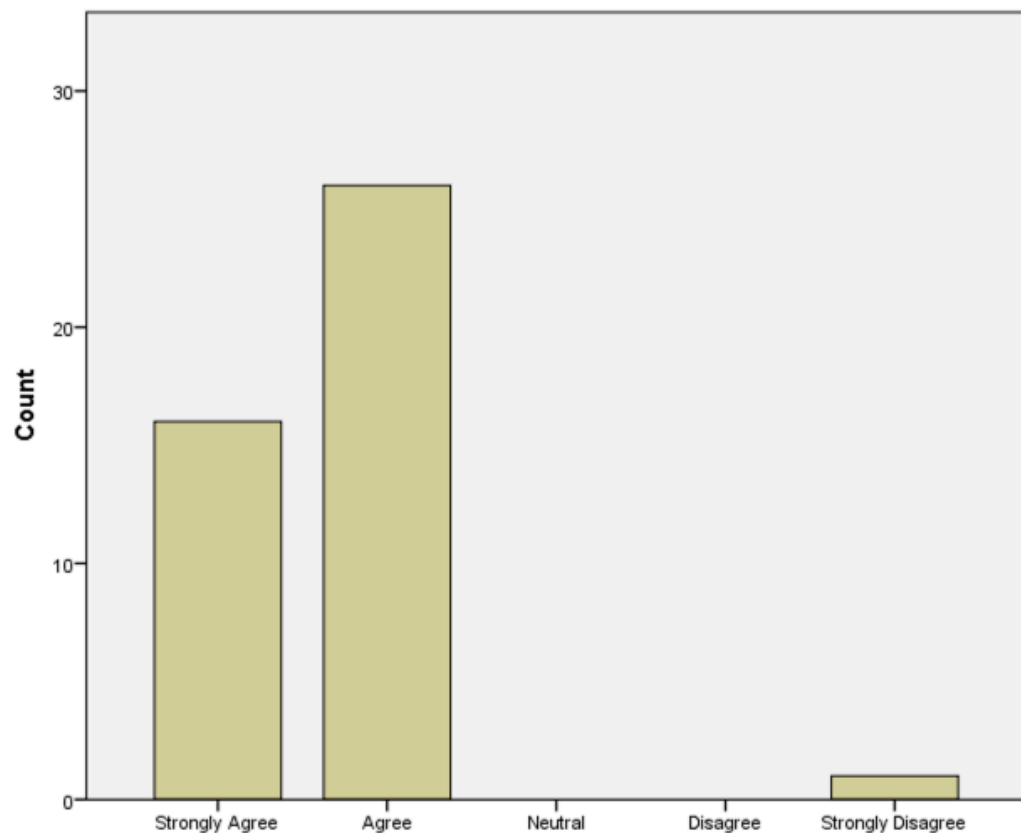

Attendee Age

	N	Minimum	Maximum	Mean	Std. Deviation
Age	44	23	84	55.39	15.744
Valid N (listwise)	44				

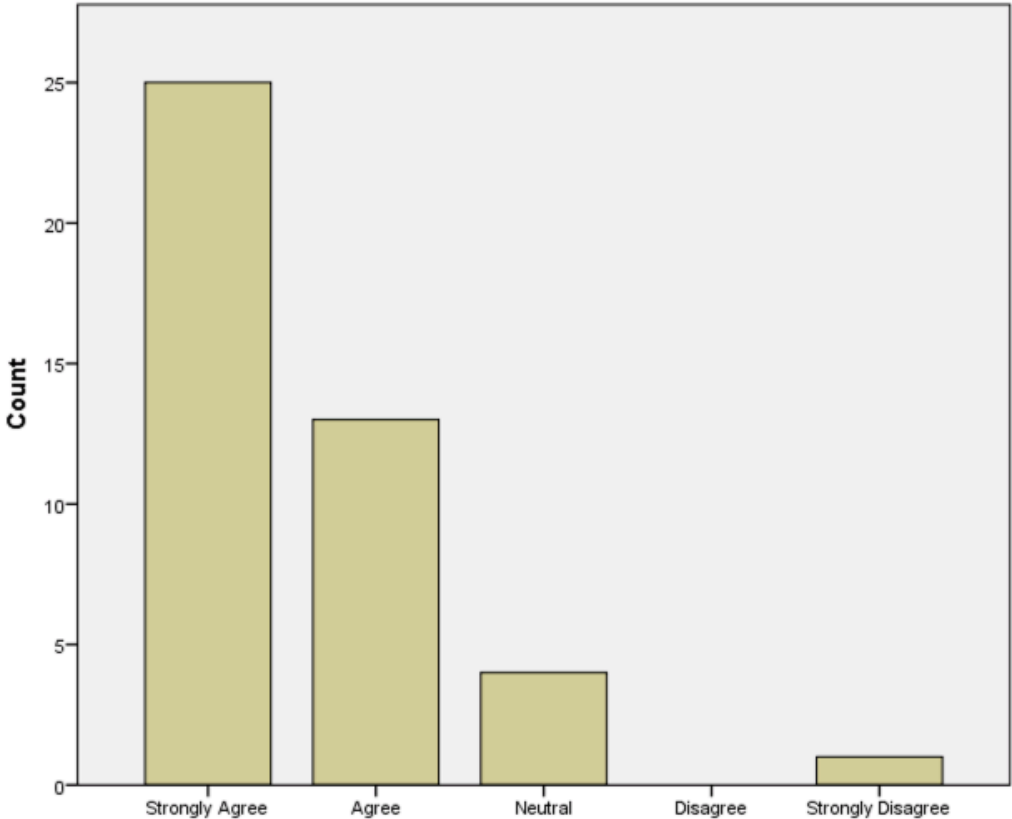

This process was useful in helping me generate ideas related to how to implement the Roadmap for Indian Country

I think most of the information provided by the Roadmap for Indian Country is applicable to my community

This Summit allowed me the opportunity to make connections with people who I would not have otherwise met.

If resources were available, would you like to see his type of event occur annually?
