

Medicaid Statement for August 25, 2020, Applied Behavior Analysis Board Meeting

As a result of SB 370 we have updated our FA11F form which is the form that the providers submit for the certification of diagnosis. This form now includes the Fetal Alcohol Spectrum Disorders as a covered diagnosis for ABA services under the Medicaid Policy. This was noted in Web Announcement 2261 at the medicaid.nv.gov website on July 21, 2020. That form can be viewed at medicaid.nv.gov and under forms.

Telehealth - During the COVID-19 pandemic ABA individual services were approved to be provided using the tele health delivery model where appropriated.

Rates - Division is working with CMS and will be releasing further direction soon. I would also refer you to the

DHCFP website for the public hearing agenda, attachments, and the details on all proposed rate reductions can be found in AB3.

Link to the Medicaid Public Hearing documents:

Data requests - If the Board would like specific data information pulled from Medicaid if they will submit that request in writing.

We will circle back with those details.
