

Executive Order #2023-03: Follow Up Guidance

ADSD Councils and Commissions

ADSD Updates

After numerous conversations, including those with the DAG and the DHHS Director's Office, it has become clear the Councils and Commissions cannot do a full administrative process related to recommendations without violating Open Meeting Law. This would include:

- Public Body meeting to conduct comprehensive review,
- Public Workshop, and
- Public Hearing.

Further, since our Councils and Commissions do not have the authority to revise NACs, only make recommendations, it has been decided that each ADSD Council and Commission is exempt from the Executive Order and will not have to conduct Public Workshops, Public Hearings, or submit a report to the Governor's office. There is still an opportunity to make your voice heard and participate in the process.

How To Participate

If a public body wishes to participate in this Executive Order process, they will have the opportunity to: (1) Attend public workshops and public hearings held by state agencies and/or (2) Reviewing, discussing, and approving a letter of recommendations to agencies related to the NAC's to be considered as part of their compliance process.

In order to offer specific recommendations from a public body, the topic must still be included on an agenda as an item for possible action in a formal meeting of the body.

All agency meeting notices will be posted on this website as they are scheduled: [Home – Nevada Public Notices Website – NV.gov](#).

Review of NAC Chapters

Please contact the ADSD Support staff assigned to your public body if you would like to forward an email to all appointed members to request suggestions for NACs to be included as part of the discussion. The ADSD Support staff can forward the email to your members as a blind copy and request this information is sent directly to them in advance of the meeting.

ADSD has compiled a list of NAC's that may be of interest to you, based on our knowledge of your priorities. This list is not exhaustive, nor is ADSD making any implications regarding recommendations of these NACs. It is simply our support of you as the Chair, to help target your efforts due to the exhaustive nature of the NACs in Nevada. Each public body has the discretion to participate in this process or not, and as such as the discretion to review NACs that are of their own choosing.

ADSD NAC Review Summary

These are the NACs that fall under ADSD and that are being reviewed. We can share more information once approval from ADSD Leadership is made.
