Nevada Early Intervention Services
Autism and MCHAT Reporting – Monthly Roll-up
Fiscal Year 22 – July 1, 2021 to June 30, 2022

Children Served[1] with MCHAT Completion and Diagnosis

Narrative: Table 1. and Graph 1. below show the number of children served by the Early Intervention system during fiscal year 22 between the months of July 2021 and June 2022[1]. Table 2. below shows the number of initial MCHAT screeners completed and the number of failed initial MCHATs by region. This table also shows the most likely reason attributing to the failed initial MCHAT as selected by the child's team. These data were provided by individual programs monthly and collected for the months of July 2021 - June 2022. Programs also reported the number of children who received a diagnosis of Autism Spectrum Disorder between the months of July 2021 - June 2022[2] along with the average age of those children at the time of diagnosis. These items are seen again on page 2 of this report as represented graphically.

Table 1.

Region	Children with no Diagnosis	Children with Diagnosis[2]	Total Served FY22
South Region[3]	4,094	325	4,419
Northwest Region[4]	1,390	136	1,526
Rural Region[5]	609	29	638
Statewide Total	**6,093**	**490**	**6,583**

Graph 1.

Total Children Served - FY22

- 122 2% — Dx Rec'd July-June
- 368 6% — Dx Rec'd prior July
- 6,093 92% — Total with NO Dx
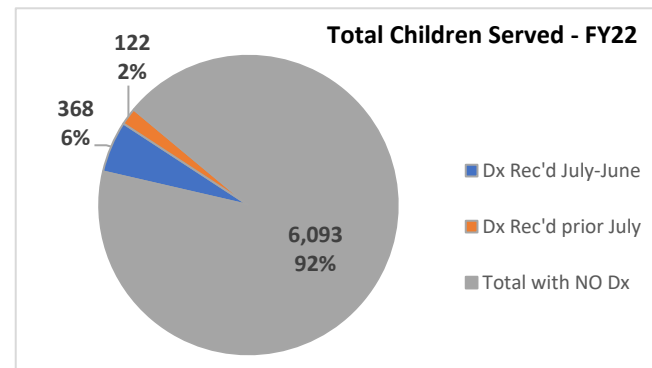

Table 2.

| FY 22 (July 2021 - June 2022)	MCHAT SCREENER INFORMATION					REASONS FOR FAILED SCREENINGS						DIAGNOSIS		ANALYTICS		
	Total Initial Screeners Completed	Number of 18-Month Failed Initial Screeners	Number of 24-Month Failed Initial Screeners	Number of "Other" Failed Initial Screeners	Declined M-CHAT	Global Delays	Another Diagnosis	Autism Concerns	Behavior Concerns	Social/Emotional	Other*	Diagnosed FY22[2] (July-June)	Average Age at Time of Diagnosis (in months)	Percent of Initial Screeners that were Failed	Percent of Failed Initial Screeners Failed Due to Autism Concerns	Percent of Failed Initial Screeners Resulting in Diagnosis
South Region Total [3]	2,123	427	539	206	27	142	29	863	50	20	68	239	31	55%	74%	20%
Northwest Region Total [4]	550	73	91	43	8	31	5	155	0	6	10	106	30	38%	75%	51%
Rural Region Total [5]	390	65	48	19	2	17	3	95	6	5	6	23	31	34%	72%	17%
Statewide Grand Total	**3,063**	**565**	**678**	**268**	**37**	**190**	**37**	**1,113**	**56**	**31**	**84**	**368**	**31**	**49%**	**74%**	**24%**

"Other" Reasons for M-CHAT Failure include but are not limited to: Communication, Physical, Environment, Lack of Opportunity, Prematurity, Sensory, Hearing, Vision, Low Cognition

MCHAT Completion and Diagnosis

Narrative: Graph 2a. below represents the count of initial MCHAT screeners completed as compared to the count of failed initial MCHATs. Graph 2b. below represents the count of Failed MCHAT reason codes as identified by the early intervention team for the failed initial MCHATs completed. Graph 2c. below represents the count of children who received an autism diagnosis[2] during FY22 (July 2021 - June 2022) by region.

Process for Autism Diagnostics[6]

Narrative: Table 3. and Graph 3. show the number of children who were engaging in the diagnostic process[6] as of June 2022. This table also shows the number of children who were referred to ATAP throughout the fiscal year. These data were provided by individual programs monthly and collected for the months of July 2021 - June 2022.

Table 3.

FY 22 (July 2021 - June 2022)	Completed at Least One (1) Appointment within the Diagnostic Process as of June 2022 [7]	Scheduled for Appointment(s) within the Diagnostic Process but Testing Has Not Started as of June 2022 [7]	Diagnostic Process Recommended but No Appointments Scheduled as of June 2022 [7]	Number of Children Who Completed the Diagnostic Process but DID NOT Receive a Diagnosis	Number of Children Who Declined the Autism Diagnostic Process	Number of Children Referred to ATAP	Number of Children Who Have Declined ATAP
South Region Total [3]	59	116	179	39	46	174	11
Northwest Region Total [4]	10	27	7	18	1	91	2
Rural Region Total [5]	5	6	29	36	16	22	0
Statewide Grand Total	74	149	215	93	63	287	13

Graph 3.

Number of Children Engaging in the Diagnostic Process as of June 2022

- 74 — 17%
- 149 — 34%
- 215 — 49%

Number of Children Pending Diagnosis [7]
Number of Children Waiting for Scheduled Assessments [8]
Number of Children Waiting for Assessments [9]

Autism and MCHAT Reporting – Monthly Roll-up
Fiscal Year 22 – July 1, 2021 to June 30, 2022

◊ Data Notes:

[1] Caseload counts were obtained from data generated on 7/12/2022 from the TRAC-IV data system; these data include children who are in "Active" status and those who have since exited but would have been active any time between 7/1/21-6/30/22. These data do not include any children who newly entered the EI system on or after 7/1/22.

[2] Count for children diagnosed during this fiscal year (FY22) to date was obtained directly from the individual programs as a part of their monthly reporting. Count of children diagnosed prior to this fiscal year but who received services any time this fiscal year, was obtained from data extracted from the TRAC-IV database.

[3] South Region includes both State and Community Provider programs serving the southern portion of the state.

[4] Northwestern Region includes both State and Community Provider programs serving the Reno area.

[5] Rural Region includes State programs serving Carson City and rural locations in the north and northwestern portion of the state including Elko, Ely, Winnemucca, and outlying areas.

[6] Table 3. - Process for Autism Diagnostics, includes information pertaining to the number of children who are engaging in the diagnostic process, have declined the diagnostic process, or have finished but received no diagnosis.

[7] Child has started assessments to determine diagnosis - completed at least 1 appointment towards diagnostic process.

[8] Child is scheduled for appointment(s) within the diagnostic process but testing has not started.

[9] The diagnostic process has been recommended to the family but the child is not yet scheduled for any appointments.

†Please note that on 3/16/20 a moratorium was placed on face-to-face services due to the COVID-19 Pandemic. Decreases in referrals and/or services may be related to the Governor's directive to shut down all non-essential businesses and engage in social distancing.
