Only 4 cases were made active, Placed this Month, all of which for prioritized services. The program continues to identify and prioritize consumers with service needs related to prevention of placement OR transition from a care facility. We anticipate the waiting list to continue to rise. The waitlist will likely continue to grow unless additional resources for the end services can be increased. The programs Performance Indicators have exceeded targets established with an average of 88% of all consumer goals being met in Quarter 3 of SFY2021 (YTD average 89%).
