Currently, the early intervention services system is experiencing a provider shortage which may impact the ability to provide services in a timely manner.

Combined caseload for the EI services system as increased by nearly 12% since the beginning of the fiscal year. Caseload and referrals have recovered to pre-pandemic numbers. The State caseload has increased by nearly 25% while the Community Provider caseload has increased by less than 1%. The disparity in increase is primarily attributed to the closure of two Community Providers programs this fiscal year with those caseloads largely being absorbed by the State.

One Community Provider program that was serving the Las Vegas area submitted their letter of intent to terminate their contract with ADSD/EI on 04/21/23. That program ended services as of 04/30/23. All cases were transferred as of 05/31/23 to both State and Community Provider programs in the south region. One Community Provider program serving children in Reno and Las Vegas entered referral rotation hold in both regions on 05/26/23 at the request of that program. They returned to referral rotation in Las Vegas on 06/13/23 and anticipate returning to referral rotation in Reno on 07/16/23.
