Nevada Medicaid's New Provider Enrollment Portal

Powered by [g-inwell](#)

All providers are required to submit their provider enrollment or re-enrollment applications electronically via the [Provider Flex](#) tool. Paper applications are not accepted.

Providers who are actively enrolled with Nevada Medicaid **do not** need to re-enroll or take any action until they are due to revalidate or unless there is a change to provider status. Providers may revalidate up to one year prior to their termination date. New or re-enrollment applications submitted for providers who are actively enrolled and are more than one year from their revalidation due date will be expired.

All enrollment documents require an *electronic signature from the provider or owner*. As part of the DocuSign signature process, the signer will be required to upload an image of their state issued license (front and back) and include a liveness video for validation (excluding associated providers). Please refer to [Web Announcement 3632](#) for details.
