- 4. For Information, Discussion, and Possible Action:** Review, discuss, and possible vote for edits to Service Delivery Subcommittee Mission and Vision Statement — *Monica Schiffer, Service Delivery Subcommittee Chair and Abbie Chalupnik, Service Delivery Subcommittee Co-chair*

Monica Schiffer asked, how do we continue doing the work in the current atmosphere. We need representation in the workforce. How do we project this in our vision and mission statement? We want to have the flexibility to include what's needed when providing services that are actual concerns for families.

Fatima Taylor state, the work has not changed. We need to keep focus while maneuvering some of the wording. In the southern region, programs are experiencing closed doors when going to family's home because of the hesitancy of the outcome or intention of the program.

Mary Garrison reviewed the previous mission statement.

"The ICC Service Delivery Subcommittee affirms and celebrates the unique and diverse needs of families we serve, and pledges a commitment to ensuring a diverse workforce, advancing equitable access to services for underserved and vulnerable populations, and together values all voices suggesting actions that deliberately expand a diversity, equity, and inclusion mindset."

Cate Guzy expressed a need to look at discussing how to close the gap when it comes to providing timely services to families through the EI system and before they enter the school district. Many families go into the school district without ever receiving the EI services they were required to receive. Now they are going into another system, so that causes confusion.

Abbie Chalupnik stated, ideally everyone shares the same benefit and same burden. Holding people accountable for what they say they're going to do or intend to do. Finding creative ways to continue the work.

Monica shared that she would wordsmith some suggestions for the vision statement where the subcommittee can provide comments and feedback and review in the next meeting.
