

ICC Bi-Monthly Meeting Early Intervention Program Updates

12/17/25

**Nevada Early
Intervention Services**
ADSD NEVADA

THERAPLAY SOLUTIONS

Updates/Highlights:

a

- Theraplay's internal end of year QA surveys had a great response turnout and wonderful feedback for our providers. This was such a wonderful reminder of the importance of early intervention for children and families.
 - "The most positive part of my experience with the early intervention program has been the incredible support, guidance, and consistency your team has provided. I truly feel that everyone involved cares about my child's progress and celebrates each milestone with us. The communication has always been clear and reassuring, and the strategies you've shared have helped me feel more confident at home. Watching my child grow, learn new skills, and become more engaged because of your help has been such a gift. I am deeply grateful for the patience, kindness, and dedication you bring to every session"
 - "I feel like my son's team is actually a part of my village. I feel encouraged and supported when [REDACTED] makes progress or needs extra help/ideas. No matter what, they help me feel capable of helping him with what he needs!"

Activities:

- Theraplay continues to expand their partnership with Gigi's Playhouse with developmental playgroups
- During concerns with SNAP funding and the federal shutdown, Theraplay service coordinators teamed together and provided additional resources and support for families that could be affected.
- 2 Developmental Specialists have graduated their cohort and received their Part C licensure this month
- 2 Developmental Specialists are active in the vision specialist cohort to expand the ability to provide vision services to children in Nevada

Trainings:

- Autism & DAYC training
- Prior Written Notice training
- MCHAT training
